

UPLIFT LECTERN

Height Adjustable Lectern or Laptop Stand

This elegant height adjustable lectern or laptop stand is both versatile and practical. The centre column has a gas spring that adjusts the height of the top with ease.

The top can also be adjusted from flat to 90° making this a sit/stand work station in the flat position or adjust the top for lectern presentations.

The Uplift lectern folds down for easy transport and comes with castors and a handle to wheel from one location to another.
