

# Style & Practicality

# Senator

## FORM & FUNCTION

Progressive innovations in technology and styling of the Senator range provide total ease of use with maximum theatrical effect.

The new Senator's timeless look is as totally at home in a modern boardroom, as it is in a media or training centre, hotel function room, university or school.

The Senator has all the space you need, to incorporate the most complex audio-visual control systems and can include a neat, easy to use loudspeaker unit.

The Senator is proudly designed and built in Australia with quality second to none.

## VALUE FOR MONEY

Most importantly, the Senator comes at a price that makes good financial sense.
